## RACE - THE ONLY BASIS FOR NATIONALITY

"THE REQUIREMENTS FOR BRITISH CITIZENSHIP IN THIS BILL ARE NOT RACIALLY DISCRIMINATORY." IT WAS WITH THAT ABSURDLY CONTRADICTORY AND TREASONABLE STATEMENT THAT HOME SECRETARY WILLIAM WHITELAW INTRODUCED THE TORIES' PROPOSED BRITISH NATIONALITY BILL IN THE HOUSE OF COMMONS LAST MONTH.

If there is one first principle for defining citizenship it is that the definition *should* be racially discriminatory. To everyone except the fools and knaves of Westminster it is pure common sense that a person can only be a citizen of a country if he is a member of the race with which that country is populated — and has been populated throughout its history.

British citizenship, that is, the absolute right to live in Britain, can only truly belong to those born of British parentage and therefore of British ancestral stock, whether they were born in Britain itself or anywhere else in the world.

The right to live in Britain is very simply the precious birthright of those people of British descent whose racial ancestors ultimately were the Celts, Saxons, Danes, Normans and other 'Northmen' whose mingling in centuries past produced that unique people, the British.

Those optimists who hoped that this simple principle might have been grasped even by Margaret Thatcher's 'Conservative' government have been quickly disillusioned.

Although recognising that the 1948 British Nationality Act, which the new Tory Bill replaces, gave the British people "no nationality of their own," Tory MP Edward Gardner was quick to point out:

"The new Bill certainly has nothing to do with Immigration as such and it has nothing to do with race . . . Those who try to introduce

race into a debate on nationality are producing a dangerous mixture." (!)

The 'simplified' Tory Nationality Bill creates three (why not seven or nine?) new categories of citizens.

Two of these are "citizens of British dependant territories" (which includes Gibraltar and Hong Kong) and "British overseas citizens". The latter includes passport-carrying flotsam of Afro-Asia who have been invading Britain for the past 30 years.

### GETS MUCH WORSE

No one in these categories is to have the automatic right of settlement in Britain, which means that a person of British ancestry from Gibraltar is to be treated exactly the same as an Indian or a Hong Kong Chinese.

A good start! But it gets much worse.

The new "British Citizen" category will bestow British nationality on those born or "settled" here, in other words on all the several million Afro-Asian and other coloured Immigrants, and their children, whom previous nationality legislation allowed to become citizens of Britain.

This "logical overhaul of our citizenship legislation" (Whitelaw's words) means that exactly the same status is granted to a Nigerian or Pakistani Immigrant who has been "settled" in Britain for five years on the basis of a passport awarded to him in 1948, as to a person born here of British descent whose earliest forbears in Britain go back fifteen centuries.

Even this bungled and botched piece of "nationality" legislation was immediately denounced by the Left, the Jews and the Community Relations Industry as "racialist" — as a result of which the Bill has been watered down even more by the spineless Whitelaw.

Originally, the Bill proposed that British Citizenship would not be automatically conferred on children born here unless one of their parents was a "British Citizen". That proposal was meaningless enough, since "British Citizen" according to the Tories means every coloured Immigrant who is "settled" here.

But the outcry against this proposal produced almost immediate capitulation by the Tories.

### ANY CHILD

The Bill has now been amended so that *any* child born in Britain, irrespective of whether its parents were 'visitors' or illegal Immigrants, becomes a British Citizen after 10 years' residence in this country.

Another proposal put forward in the first draft of the Bill was that people who became citizens by naturalisation or registration could not transmit their citizenship to children born overseas.

In other words, a Bangladeshi who acquired British Citizenship, then left and had children born to him or her in Bangladesh, could not automatically pass on to them British Citizenship.

And in a pathetic attempt to ensure that this proposal was not "racially discriminatory" it was balanced by the fact that even people of British ancestry who went overseas could not pass on their citizenship to their children born abroad.

But this was still not good enough, and following the demands from the pro-Immigrant lobby an amendment was introduced so that British Citizenship can be passed on by a naturalised Immigrant to their children born overseas.

The Conservative Bill, according to Whitelaw, is one that supposedly streamlines and makes logical our nationality legislation by defining who can be a citizen of Britain with

BRITISH  
BY  
RACE

a right of settlement here.

To assess how true that is, consider the following:—

- Under this Bill, a British Citizen can be an Indian "settled" in Britain for five years. His or her children will immediately become citizens, and their relatives from India will eventually become citizens too if they are brought over here.

- The child of an illegal Pakistani Immigrant or an Afghan or Iranian 'visitor' is also a British Citizen after a 10 year period of residence. So too is an African born in Swaziland if one of his parents was once naturalised as a citizen of Britain.

- On the other hand, a British New Zealander or Gibraltarian is only a citizen if one of his or her parents was born or "settled" in Britain. Otherwise, even though he or she may be of wholly British ancestry, they have no automatic right of citizenship or settlement in Britain.

This is the sort of lunacy that prevails once race has been removed from the definition of nationality.

### ONE CATEGORY ONLY

The National Front is pledged to scrap all such nationality legislation and replace it with a Citizenship Law based solely upon race. This will grant British nationality and the right of settlement in our country to *one* category of people only — people who are of British ancestry by race.

The granting of naturalised citizenship to non-Britons will be a privilege awarded on a highly dis-

criminatory basis to those Northern Europeans who by virtue of their race are easily assimilable in the British population.

As part of the NF's programme of repatriation, all Afro-Asian and other non-European Immigrants and their descendants will revert to the status of aliens subject to resettlement in their countries of racial origin.

British Citizenship will no longer be something stamped on a piece of paper and handed out like free rice to the surplus population of the world — but a privilege of birth.

THIS ASIAN WANTS BRITAIN FOR HIS RACE — AND HE'S DOING SOMETHING ABOUT IT. WHAT ARE YOU DOING, WHITE MAN?

## TORIES HEAP BETRAYAL UPON BETRAYAL

THERE can be no doubt that one of the factors which pushed the Conservative Party past the winning post at the last General Election was the illusion which Tory propagandists created of their party being committed to "doing something" about Immigration and the race problem — and associated law and order problems.

The record of the Tory Party once in office has been that of one betrayal after another. Immigration has not only not been curtailed in the slightest — it has actually increased. Within days of coming to power Mrs. Thatcher (so sympathetic about the fears of those who feel Britain is being "swamped") opened the floodgates to a new variety of

Immigrant, the Vietnamese 'Boat People'.

Despite the appalling tide of muggings, a few howls from the 'Community Relations' lobbyists caused the disgusting Willie Whitelaw to announce the scrapping of the 'Sus' law.

Now Whitelaw — with Thatcher's approval — has caved in over the pathetic token efforts contained in the Nationality Bill to stem the alien tide. Britain will continue to be the dumping ground for the surplus population of Afro-Asia.

We warned before the election that the Tories would break every promise about race and Immigration — but the electorate ignored us and voted Tory. That was their decision. Now they face Race War — that is their reward.

NF News seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful — only "racial hatred".

## ARMAND HAMMER — THE SINISTER 'MR. FIXIT' OF EAST-WEST TRADE

THE WHOLE basis of post-war British foreign policy has been the conflict between East and West, the battle between Communism and Capitalism — but is this a real conflict or is it really a most gigantic Con Trick?

While Britain spends millions of pounds to bolster up the military defences of NATO against a supposed Russian threat, there is a certain type of individual who is made to feel equally at home in Washington and in Moscow, and to whom international conflicts merely provide an opportunity to increase their influence.

Just such a man is Dr. Armand Hammer.

Dr. Hammer grew up in America and became a millionaire while still a student. Hardly had he left college than he was off to the Soviet Union where he promptly set about providing aid to the already murderous Communist Government.

Dr. Hammer managed to purchase a full mobile hospital from the United States Army and have it shipped to Russia. He was also able to ship one million dollars worth of American wheat in return for Russian furs and caviar.

This was at a time when America did not even recognise the Soviet Government and was condemning the atrocities that were being perpetrated by the Soviets.

### LENIN'S PAL

Dr. Hammer rapidly gained access not only to the higher levels of the Soviet Government but to Lenin himself.

He stayed in the Soviet Union for a further nine years organising a massive injection of capital into the disastrous Communist economic system. Without this money the regime would almost certainly have fallen.

When Dr. Hammer finally left

Dr. Armand Hammer

the USSR he cynically robbed the Russian people of many of their most famous art treasures — not a hand being raised to stop this ravage of their national pride.

Since then he has continued to maintain contact with both the Kremlin and with Washington and has been instrumental in devising many East-West transactions. Many of these deals have frequently been extremely damaging to the security of Western nations.

The Soviet Army is equipped with lorries produced by the Kama river complex which was American built and is equipped with one of America's most modern computer control systems.

The lorries that are produced have a 60% greater haulage capacity than those previously produced in

the Soviet Union. These lorries were used in Vietnam by the Communist forces that were at war with America.

Even today the silicon chip technology that is essential for the guidance systems of Soviet Inter-continental Ballistic Missiles has been supplied by American and West European companies, and has been bought with credit supplied by international finance companies mainly based in London and New York.

Dr. Hammer has excelled in building up this type of East-West trading empire, although he has received excellent tuition from the rest of his family.

### RUTHLESS AMORALITY

His grandfather, Jacob Hammer, was a millionaire Jewish shipbuilder in Czarist Russia. His father owned a chain of pharmacies, was a member of the American Socialist Party and was jailed for three years for performing illegal abortions.

Lack of regard for national interests and ruthless amorality is characteristic of the small group of individuals who by their activities are taking away from nations the right to determine their own future.

In Britain we are seeing the end result of allowing these people to wield such power over our national government. Our politicians have to crawl to the international bankers and multinational companies to seek favours and ask for hand-outs.

They are so scared of these international swindlers that they are allowing our whole economy to be wrecked rather than risk offending them by introducing nationalist policies such as import controls.

Under a National Front government, Britain would cease to be a healthy place for the likes of Dr. Armand Hammer.

## NF organisers get down to business at London conference

BRANCH, Group and Regional organisers of the National Front from all parts of the country attended a conference on Saturday 31st January to discuss the NF National Directorate's plan for the re-organisation and development of the party.

The conference was held in a central London hotel, and the atmosphere was one of confidence and enthusiasm.

The conference was held specifically for the benefit of members holding the office of **Organiser**. Other local Committee officers only attended as substitutes where their local Organiser was precluded from attending by illness or work.

In all 78 local officials attended the conference, and of these 48 were Organisers of *bona fide* functioning units (unlike the obscure names which decorated a recent 'NNF' factional diatribe).

It is noteworthy that of the 48 Branch/Group Organisers in attendance, 36 held office as Organisers in January of last year, indicating a substantial degree of continuity of local leadership in the party.

Attending the conference were:

## MONOPOLISTS SHOWER TORIES WITH MONEY

DONATIONS to the Conservative Party soared to a new record level last year. These donations have not come from the British people, they have come from multinational companies and international finance houses.

These organisations, which have been given licence to bleed Britain white, have handed over nearly £2 million to the Tories, more than double the amount given in the preceding year.

Many British industrial firms such as EMI and GKN — traditional supporters of the Conservative Party — have actually reduced the level of their donations, but this decrease pales into insignificance next to the massive increase in gifts by the large multinationals and the finance houses.

The top ten firms for donations includes the insurance group Sedgwick, which increased their donation from £10,000 to £41,000; the property giant Trafalgar House, up from £20,000 to £40,000; and the

international mining group Consolidated Gold, up from £25,000 to a record-breaking £50,000.

### SLUSH FUNDS

The Companies Act of 1967 requires the disclosure of all gifts to political parties in excess of £50. In order to get round this difficulty a number of organisations have been set up to channel funds from business into the Conservative Party coffers without the firm having to disclose such gifts.

The largest of these is the British United Industrialists — which does not deny that most of the money it collects is passed on to Conservative Central Office.

This organisation was probably responsible for providing the Conservative Party with at least £500,000 last year in addition to the £2 million given directly by business. The exact figure may be much higher because, being an unlimited organisation the British United Industrialists is not covered by the 1967 Companies Act.

Other such Conservative fringe

organisations include the Economic League, which is currently being investigated by the Special Branch, and AIMS, the right-wing anti-nationalisation organisation.

When donations to all these various organisations are combined it is clear that international big business coughed up around £3 million to prop up the ailing Tory Party.

### BIG SPENDERS

Individual big spenders included Allied Breweries who gave £62,000 (up from £37,110) and the bread giant Rank Hovis at over £48,000. Both of these presumably grateful for the abolition of the Price Commission which now allows them to raise prices at will.

The finance groups were well up the list with Hambros at £22,000, Hill Samuel at £15,000 and Kleinwort Benson at £10,000.

The Conservatives have been forced to increasingly turn to this type of gift as the flow of donations and subscriptions from individuals has plummeted disastrously. Tory membership has been declining con-

tinually from a peak of over three million in the early 1950s to a current figure of less than one and a half million, and with many of these simply holding social membership.

This catastrophic decline in financial support from ordinary British people has meant that the Conservative Party simply cannot survive without the continual cash injections from international Big Business.

By March 1979 the Party's central funds were showing a £1.37 million loss and only this massive pay off from Big Business has averted total disaster.

With this abject reliance on international and foreign companies Margaret Thatcher clearly cannot be expected to stand up for the rights of British firms and of the British people against the ravages of these giant monopolies.

Only when a political party comes to power that is financed exclusively by its membership of British people can we expect to see these monsters brought under control and the interests of the British people put first.

# JEWS EDGE WHITELAW NEARER TO POLICE STATE 'ANTI-RACIST' LAWS

HOME Secretary William Whitelaw has announced that he intends to set up an "internal investigation" of racist organisations which will be conducted by Home Office "experts".

He also intends to call a conference of Chief Constables in order to discuss the establishment of a special new Police 'Anti-Racist Squad'.

These announcements presage the introduction of a new series of Laws designed to subject Racial Nationalists to even more repression of their rights than already obtains.

Patriots should not be downhearted, however. Recent attempts to subvert and disintegrate the NF have failed, and now the Establishment is faced with an economic crisis which is likely to cause the multi-racial society to blow up in its face.

Whenever the Establishment gets frightened it throws democracy overboard and starts to play rough. The climate which more repression will create will offer serious patriots more not less opportunities for effective struggle.

Whitelaw's announcements were made on 4th February to lobbyists from the Joint Committee Against Racism — an alliance of Conservative, Labour and Liberal politicians, Churchmen and Immigrant community leaders.

Behind this front of Establishment 'respectables' is the organisation which is the true instigator and manipulator of the group: the Zionist Board of Deputies of British Jews.

The JCAR was set up by the Board of Deputies in 1978 after it decided to pull out from the Anti-Nazi League (which it helped to form in 1977) because ANAL was not pro-Israel enough.

The main thrust of the JCAR's

representations to the Home Secretary was that there is a build-up of violent attacks on members of minority ethnic groups — including the Jews.

## CONSPIRACY?

Press commentators, orchestrated by the Board of Deputies, have additionally suggested that the attacks are the product of an "international conspiracy of neo-Nazi terrorists."

That there are attacks against Immigrants, their shops and property — especially in areas of bad housing and high unemployment — is a regrettable fact of life in multi-racial Britain. But inter-communal violence is a fact of life in every multi-racial society throughout the world!

There is no evidence to indicate that any organisation incites, organises or approves of such violence. There is much evidence to indicate that such violence is the instinctive reaction of ordinary White people struggling to defend themselves against alien interlopers.

After all, the British people at no time asked the politicians to turn Britain's inner cities into multi-racial slums. The multi-racial nightmare was forced on the British people by deceit and trickery.

The British people expended much blood fighting off a German invasion of their land. Is it reasonable to expect them to passively accept an invasion of more than four million Afro-Asians?

White violence against Blacks there are many more instances of Black violence against Whites (especially White women and old folk) as Police mugging statistics continually reveal.

Furthermore, many 'race-hate' incidents are the work of Communist agents provocateurs. The press gave big publicity to gloating anonymous letters purportedly sent by White racists to relatives of the 12 West Indians who died in a fire at an all-night party in Deptford, South London, in January.

But now forensic tests have revealed that the author of one such letter is, according to the Police, "known to us as having strong Left Wing views."

Propaganda allegations about White violence against Blacks has, of course, been souped-up by refer-

ence to a "growing number" of attacks on Jews and synagogues.

In this regard, it is noteworthy that the trivial number of such incidents in Britain only came to light following the massive publicity given to the bomb blast outside the Rue Copernic Synagogue in Paris last Autumn.

The mass media's Zionist propagandists were quick to blame "neo-Nazis" (without a shred of evidence) and stayed strangely silent when it was revealed that the French security authorities believed that the outrage had been perpetrated by Jewish, probably Israeli, agents provocateurs.

The hysterical publicity given to the Paris bomb may have stimulated juvenile vandals to perpetrate attacks on synagogues in Britain — but some of the attacks reported

could easily be the work of Zionist or Marxist provocateurs.

In this regard, Martin Savitt, Chairman of the Defence Committee of the Board of Deputies warned a (closed) meeting of the Deputies late last December that members of the Jewish community had made "misleading and inaccurate reports to the Police."

"Some members of our community acted completely irresponsibly and put about stories that were simply not true," Savitt admitted to the private gathering. The only paper to report his comments was the Manchester Jewish Telegraph of 31st December 1980.

Nonetheless, false allegations are employed as the basis for the Board's campaign to press for Police State repression against British Nationalists.

## POLICE SMOTHER FREE SPEECH AT WIMBLEDON

NF members parade through Wimbledon Broadway

IN A BID to stop the National Front using marches as a means of side-stepping the Establishment's campaign to crush the party by denying it access to meeting halls, the Police have evolved tactics designed to smother the NF's ability to get its message over to the public on street demonstrations.

These smother tactics were exhibited on the occasion of a march in Wimbledon, South London, on Saturday 17th January.

The march was organised by the NF South London Regional Council to protest against the expenditure of £56,000 of public money on an Asian 'Cultural Centre' in Merton. The local Police were given a week's notice by Merton NF Organiser Mr. John Perryman.

Even though he explained that

the march would be a regional activity, likely to be supported by about 100 people, he was summoned to Scotland Yard where senior officers tried to bully him into cancelling the event.

In the face of Mr. Perryman's insistence, the Police arbitrarily ordered a route and an open-air rally site which would keep the NF marchers out of eye- and earshot of the public.

On the day, Wimbledon Station was flooded with hundreds of Police officers who set about trying to bully young NF members. One Croydon youngster was set upon by SPG oafs who stole the leaflets he was carrying.

In order to prevent the marchers' placards being seen, the 130 marchers were surrounded by a hedge of 400

officers.

In order to prevent the banner at the front of the column being seen, a riot control van was placed directly in front of it.

In order to prevent the public hearing what the march was about, the Police forbade the use of loud-hailers.

In order to prevent the public reading what the march was all about, the Police forbade the distribution of a special leaflet.

In order to prevent local residents hearing the speeches at an open-air rally, a Police helicopter hovered directly over the platform.

As there was no Left Wing counter-demonstration — none had been anticipated — the Police tactics can only be viewed as the product of politically-motivated repression.

## OLD SOLDIER GEORGE, 89, LEFT TO STARVE AT XMAS

WHEN have you ever seen a headline: "Concern over white at Rampton?" The fact that *The Guardian* could publish the headline reproduced below without a second

thought shows just how sick our multi-racial society has become.

A more tragic example of Britain's multi-racial sickness came to light just after last Christmas when 89

year old ex-Serviceman Mr. George Payne was found by his neighbours in Hornsey, North London, starving to death.

Mr. Payne, a Briton who served his country in both World Wars, had not eaten for six days. He was found wrapped in a blanket huddled near a cold radiator. He had been unable to open a tin of beans because of his crippled hands.

"I don't deserve this, do I?" asked Mr. Payne when he was found.

## BRITAIN GIVES £50M FOR CAIRO'S SEWERS

DURING recent years there have been an increasing number of reports of huge holes appearing in the roads of big cities — and of buses disappearing into them.

The holes have been caused by the collapse of sewers due to a combination of the pounding of juggernaut lorries and sustained neglect. Many sewers were built more than 100 years ago.

If the sewerage system breaks down then plagues and epidemics

will soon follow. Despite this, the authorities prefer to spend cash on 'Community Centres' for Immigrants and Foreign Aid.

Now it is reported that the Government has set aside £50 million for the modernisation of sewers... in Cairo!

This good news — for Egyptians — was announced by Mr. Neil Marten MP, who represented the British Government at a recent IMF conference.

Dear Sir,

SURVEY OF BLACK BUSINESSES IN LAMBETH

In carrying out the provisions of the Race Relations Act 1976, Lambeth Council is taking various steps to discover to what extent any section of the population is disadvantaged.

The Council is concerned with improving employment prospects in the Borough and recognises the contribution that small businesses, in particular, make to the local economy. Small businesses owned or managed by black people are thought to be growing in number and the Council consider it to be important to find out whether there are any special problems faced by such businesses in Lambeth.

As a first step, the Council wishes to make contact with black businesses \* (in the strictest confidence) and this can only be done by asking you to complete the slip provided. We then propose to interview a sample of firms to obtain the necessary information.

If your business is in black ownership or management, we should be grateful if you would complete the attached slip and return it in the prepaid envelope provided. Once again we stress the confidentiality of this information. Should you have any questions about the survey, the Principal Race Relations Advisor, (274 7722 Ext 2329 or 2296) will be pleased to speak to you.

\* by "Black Business", we mean any concern (shop, office, factory, etc., etc.) owned and/or operated by someone who may be discriminated against because of their colour

BANKS and monopolistic multi-national companies are the only commercial enterprises benefitting from Mrs. Thatcher's 'monetarist' policies. Small private firms and self-employed people are being driven to the wall.

As we revealed last August, during the first three months of 1980 there was a 29 per cent increase in business bankruptcies compared to the same period in 1979. There is worse to come.

Even though the majority of firms affected by this massacre are owned and run by native-born White Britons, the Labour-Marxist run Lambeth Borough Council have set up a special scheme to assist small businesses run by Immigrants.

This discriminatory scheme is being promoted under the terms of the Race Relations Act — a law which is supposed to forbid racial discrimination!

In Lambeth the majority of commercial ratepayers are White, but the Council intends to use cash levied on them for the exclusive benefit of their Immigrant competitors!

There already exists a scheme in Lambeth supported by Government funds and funds from Zionist-run trading giants like Marks and Spencer, to help Immigrants set up in business.

M&S have loaned managers to help administer the new Immigrant firms, a 'charitable' act which is tax deductible — i.e. subsidised by the ordinary taxpayer!

Buzby says: "Think Lambeth's Race Relations Advisor what you think of the new scheme by ringing 274 7722, extns. 2329/2296."

# N.F. MARCHERS DEFY I.R.A. AND 'ANTI-NAZI' ALLIANCE IN CARDIFF

Leading NF March through Cardiff: NF Chairman Andrew Brons, Deputy-Chairman Richard Verrall and NF President Blaise Wyndham.

Pride of place among the Union Flags at the front of the column, the flags of Northern Ireland and Wales.

NATIONAL FRONT marches compel all manner of Red slugs and other repulsive beasts to crawl out from under their flat stones and exhibit themselves.

That was certainly the result in Cardiff, South Wales, on Sunday 25th January, when 600 NF members staged a "Smash the IRA!" march through the city to express opposition to a 'Bloody Sunday' commemoration march by the Sinn Fein, the "political wing" of the IRA.

No sooner had the NF announced its intention to stage its anti-IRA counter-march than the 'Anti-Nazi League' (ANAL) announced that it would mobilise to oppose the NF.

The South Wales Organiser of ANAL, Mr. Terry James, issued a press statement saying that his organisation's mobilisation against the NF should not be construed as

indicating ANAL support for the Sinn Fein.

This lie was exposed by a South Wales representative of the NF, Mr. Stephen Newman, who revealed the following facts:

## I.R.A. SUPPORTER

1) James is a leading local organiser of the Socialist Workers' Party. The SWP openly supports the IRA.

2) James is a leading local organiser of the openly pro-IRA 'Troops Out Movement', a 'front' organisation of the SWP.

3) In 1979 James and other 'Troops Out Movement' rowdies were thrown out of one of James Callaghan's election meetings in Cardiff shouting pro-IRA slogans.

4) James was a co-founder of the 'Anti-Nazi League' in South Wales along with leaders of the pro-IRA Welsh Republican Socialist Party.

The spectacle of allegedly "democratic and peace-loving" ANAL Reds mobilising to oppose an anti-IRA terrorist march by the NF served to open the eyes of many people in South Wales.

After a pathetic attempt by the ANAL rabble to 'ambush' the NF column, the NF marchers attended a rally in Sofia Park which was addressed by Mr. Newman, YNF Organiser Joe Pearce, NF National Activities Organiser Martin Webster, NF Deputy-Chairman Richard Verrall and NF Chairman Andrew Brons.

Press reports of the NF turnout ranged from 150 to 350!

## TWO LOCAL MARCHES IN WEST MIDLANDS

THE renewed vitality of the NF in the West Midlands was demonstrated in January when two branches in the region staged local marches within seven days.

Our picture (right) shows Mr. Eric Shaw, Wolverhampton Organiser, leading 50 members on Sunday 11th January in a protest against a decision to spend £84,000 on an 'Afro-Caribbean Centre'.

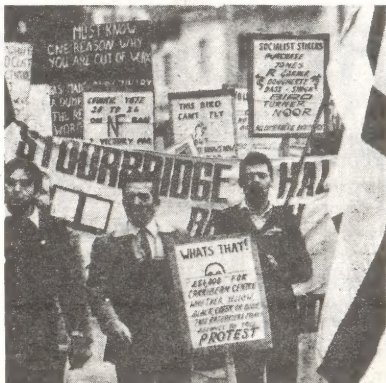

The Police tricked Mr. Shaw into believing they had the power to start the march at 9.30 a.m.!

The Police tried the same trick on Mr. Alan Bonhomme, West

Bromwich Organiser, in respect of a march he staged on Saturday 17th January against a Council decision to house more 'Boat People'.

Mr. Bonhomme was not conned. Our picture (below) shows him with a megaphone at the head of 100 members who marched off at 11.00 a.m. Later a rally was addressed by YNF Organiser Joe Pearce.

On the same day only 197 persons supported an NNF "Major National Mobilisation" in Birmingham. Of these fewer than 100 were NNF members.

## DAVID GOES MARCHING AS TORIES GO BHATTI

IN a bid to curry favour with the Asians, the Conservative Party nominated one Mohammed Bhatti as its candidate in a by-election for the Accrington Central Ward of Hyndburn Council, Lancs.

So much for Mrs. Thatcher's talk of "understanding British peoples' fears about being swamped by Immigrants"!

Accrington NF Organiser, announcing his nomination in the election, accused the Tories of "grovelling for the Immigrant vote."

A feature of his campaign was a regional march on Sunday 1st February led by Mr. Riley, to a school hall where a rally was held. Though called at short notice, more than 300 people from Lancashire sup-

ported it. Joining Mr. Riley on the platform were NF Chairman Andrew Brons and NW England Regional Agent

Mr. Alvin Hanson. Mr. Riley won 102 votes (8.8%). Labour won with 760 votes. Bhatti attracted 296 Tory votes.

## ARSON ATTACK ON N.F. MAN'S HOME

WHILE NF Bolton Organiser Mr. John Hamilton was spending Christmas with relatives in Fleetwood, terrorists broke into his home on 30th December and lit a fire in his bureau where he stores his NF files.

The fire caused £2,000 worth of damage. In recent months Mr. Hamilton led a campaign against a Bolton Council decision to spend £70,000 on Immigrant 'Community Centres'. Some months ago he received a number of bomb threats.

"This won't stop me campaigning," Mr. Hamilton told NF News.

The mass media, of course, suppressed news of this latest arson attack on NF property.
